A SAFE AND ELEGANT ALTERNATIVE TO GLASS

Strahl® beverageware is a high quality range that combines the strength of polycarbonate, with the elegant look and feel of glass.

Elegance

Strahl® beverageware is made of a high quality polycarbonate, a remarkable material that enables us to produce beverageware products with the clarity and elegance of glass. All products are hand finished to remove manufacturing join lines, giving an elegant appearance.

Versatility

Strahl® beverageware makes stylish entertaining possible, anywhere. All of the elegant products can be chilled in either the refrigerator or freezer, with superior insulation properties keeping beverages at optimal drinking temperature for longer.

Strength

Strahl® beverageware does not shatter, making it an ideal and extremely safe alternative to glass. All Strahl® beverageware products undergo a unique finishing process to extend the lifespan and durability of products.

Dishwasher Safe

Strahl® products can be cleaned in commercial dishwasher system, on either a high or low temperature cleaning operation, with ease.

Cost Saving

The durable polycarbonate material reduces re-order frequency, making it a cost effective alternative to glass.

INTRODUCING THE NEW Strahl® Gift Pack

RANGE

You can now purchase our most popular Strahl® glasses in gift packs (four glasses per pack)

THE NEW GIFT PACKS:

- Attract customers to Strahl® product on shelf
- Allow customers to see the quality of the product in the open window of the pack
- Showcase Strahl® as a safe and elegant alternative to glass

Strahl® Product Guarantee

Innova Products Limited guarantees its Strahl® beverageware products will be free from defect or damage due to faulty or defective materials, workmanship or manufacturing. This guarantee does not extend to fair wear and tear or damage caused by misuse or mishandling.

If your purchase is unsatisfactory due to faulty or defective materials, workmanship or manufacturing, please return the product with the original proof of purchase to the supplier where the product was first purchased from, it will be replaced free of charge.

What Can You Serve In Your Strahl® Beverageware?

The unique properties of Strahl® beverageware allow cold drinks to be served and remain at the cold serving temperature for much longer than drinks served in glass or ceramic. Please be aware that the following aniseed based drinks cannot be used with any kind of polycarbonate beverageware as they will cause permanent damage: Pernod, Anis, Ricard, Raki, Ouzo. Milky drinks may leave a residue if the beverageware is not washed with warm soapy water.

Strahl® beverageware is recommended for use with cold drinks and food. If you would like to use it for hot drinks or in the microwave, please refer to the testing information on the FAQ page of our website www.strahlbeverageware.com

How To Care For Your Strahl® Beverageware

Strahl® beverageware is made from an incredibly strong product called polycarbonate. Polycarbonate has some unique properties and requires slightly different handling to standard glassware. Follow these simple rules to ensure your Strahl® beverageware remains crystal clear.

Avoid stacking your Strahl® beverageware (unless you are using the CapellaStack range, which is designed for stacking) whilst carrying or storing it. Polycarbonate products are incredibly tough so will scratch other polycarbonate products if allowed to rub together.

Wash your Strahl® beverageware in the dishwasher or by hand with warm soapy water to remove residues from juice, milk, stout, etc. Washing in a steriliser may result in a build up of residue.

Polycarbonate may be scratched if cleaned with abrasive brushes. Buffing with a microfiber glass polishing cloth will remove light scratches and abrasions.

The Strahl® beverageware 'Da Vinci' range has a threaded joint that should not be unscrewed.
